Many updates are being implemented, most notably Microsoft Internet Explorer 10, an upgrade from the existing Internet Explorer 9. Other updates include: Adobe Flash Player, Java, Adobe Reader (view/print PDF documents), OpenOffice 4 (upgrading from 3.x to 4 for file version compatibility), Symantec End Point Protection (virus/malware/spyware protection software), and ZoomText (assists hearing impaired/visually challenged).

New software installations include: CutePDF writer (provides ability to print to PDF instead of a printer), Google Chrome Browser (provides another option to Internet Explorer), and Microsoft Paint.

The various updates and installations will be announced and conducted in phases since some software will be removed during the process.

Self-Renewal Option for eBooks

Need more time to finish reading the eBook you borrowed?

he Hawaii State Public Library
System now offers library patrons a
renew feature to renew books they
currently have checked out, provided there are no holds on the title. Renewing puts you in line to borrow a title
again once your first checkout expires.

The option to renew a title becomes available three days prior to the book's expiration date, and can only be used once for each book checked out. Patrons will receive an email notification as soon as the first checkout expires and the title becomes available again for them to borrow. If there is a hold on the title, patrons can still use the renew feature to reserve a spot on the wait list.

In addition, this OverDrive upgrade offers a high-contrast viewing option for patrons to enhance their reading experience.

JDC: "Yes, I've been a public library user since I was in elementary school. Regardless of where I resided on Oahu in my life, I've always attended the Salt Lake-Moanalua Public Library. But there are also times where I borrowed some books from the Kapolei Public Library."

Q: What do you hope to accomplish for our public libraries during your three-year term (one-year term) with the Board of Education?

PH: "I hope that our public libraries will become even more of a diverse hub of activity for the community. As we move into the digital age, we need to balance traditional uses of library with more transformative approaches. I'd like to help imagine what this might look like to engage more youth and families with the library."

JDC: "During my year-long term with

the Board of Education, I hope to become closer with the public libraries and see the awesome programs they hold. Thanks to the State Librarian's reports given at our board meetings, I am well aware as to the great things happening and wish to see students of schools not only participate in the programs, but perhaps help run them or host a few of their own programs in their local libraries. This will definitely bring in many more library visitors of all ages, and inspire other students and younger kids to pursue a future, related to any of the programs or acts and performances that have taken place. Being a student, though sitting in a seat as a Board member, it would be a great accomplishment to be a part of running or participating

in these library programs and to help the

libraries flourish and grow."
