## Newspaper Source

**N**ewspaper Source is one of 61 EBSCOhost electronic databases available for viewing free of charge for HSPLS customers. It contains material from 237 regional U. S. newspapers, 26 international newspapers, 19 newspaper columns and newswires, and 35 TV and radio news transcripts. There are cover to cover full text of *USA Today* (from 2002 to present), *The Christian Science Monitor* (from 1995 to present), *The Washington Post* (from 2003 to present), and *The Washington Times* (from Sept. 1997 to present). In addition, there are abstracts of articles from *The New York Times* and *Wall Street Journal-Eastern Edition*.

To access this database, visit [www.librarieshawaii.org](http://www.librarieshawaii.org), click on "Other Databases," scroll down the list and select Newspaper Source. You will be asked to enter your valid library card number. A list of all available titles may be viewed by clicking the "Publications" tab at the top of the Newspaper Source search page. This list indicates the type of coverage and the dates of coverage.

The international newspapers which have cover to cover full text include: *The Times* (London), *The Australian*, *Bangkok Post*, *Toronto Star*, *Slovak Spectator*, *Daily Yomiuri* and *Yomiuri Shimbun* from Japan, *The Nation* from Thailand, and *The Middle East & North Africa Business Report*.

Selected articles are available in full text from more than 200 regional U.S. newspapers including the *Boston Globe*, *Chicago Tribune*, *Detroit Free Press*, *Philadelphia Inquirer*, *Miami Herald*, *Seattle Times*, *Los Angeles Daily News*, and *San Diego Union-Tribune*. Each newspaper is asked to provide all business related stories published each day. Many newspapers also provide

additional articles that are of national or international interest.

Full text TV and radio news transcripts are provided from CBS News, Fox News, MSNBC, and National Public Radio for approximately 35 programs such as: 60 Minutes, 48 Hours, Face the Nation, CBS Evening News, Fox News Watch, Hannity and Colmes, O'Reilly Factor, All Things Considered, Morning Edition (NPR), and Talk of the Nation. There is also content from newswires and newspaper columns, such as Computer Column, Morningstar Column, and Wall Street Column.

One advantage of using Newspaper Source over the individual newspaper web sites is the excellent search capability provided by EBSCO. One may search by keywords, subjects, authors and titles; and limit the search to particular newspapers and dates.

Newspaper Source is provided through Federal Library Services and Technology Act funding, which is administered by the Institute of Museum and Library Services.

## HECO to the Rescue

"For every dark cloud, there is a silver lining."

**H**awaiian Electric Co. came to the rescue of Kahuku Public & School Library after vandals had smashed three glass windows on the front doors during the Labor Day weekend. A new keiki reading corner was damaged in the process but nothing was stolen. HECO staff generously donated 45 new stuffed animals and 87 board books. Here, Children's Librarian **Nicole Thode** is surrounded by stuffed animals which were placed in the refurbished children's area, and the doors have been replaced. Other donations have been received from concerned community members and friends. There is a \$1,000 reward leading to the arrest and conviction of the vandals; call the library at 293-8935.

## WestCo Feels the Earth Move

**T**he Western Council of State Libraries, which conducted its fall conference at the Waikiki Beach Marriott Oct. 16-18, received an unexpected addition to its agenda – earthquakes!

Several members of the Western Council, composed of State Librarians from 22 states west of the Mississippi, including the host HSPLS, experienced the two big earthquakes on the morning of Oct. 15. Many more members were impacted by flight disruptions, delays and cancellations, unavailable hotel rooms, lack of electricity, water, food, and uncomfortable heat and humidity.

With activities in Hawaii back to normal by the morning of Oct. 16, Western Council members were in good spirits and enjoyed a welcome breakfast. The highlight that morning was an informal discussion with Stephen Abram, Vice President for Innovation at SirsiDynix.

In addition to the regular business meeting and discussions, members toured the Hawaii State Library and Kapolei Public Library (HSPLS' oldest and newest libraries), and the Bishop Museum's library and archives.

## Earthquakes Close Laupahoehoe Library; Other Libraries Sustain Minor Damage

By Paul H. Mark

**I**n the aftermath of the two strong earthquakes that rocked the Big Island on October 15<sup>th</sup>, library officials announced that the **Laupahoehoe Public & School Library** would remain closed until a more complete assessment can be made. The bookdrop would remain closed, as well.

The state Department of Accounting and General Services (DAGS) conducted an inspection and declared this library to be unsafe from damages sustained from the 6.7 and 6.0 magnitude tremors which were felt statewide, and caused extensive power outages. Library officials were advised to keep the library closed until the building was determined to be structurally sound. A \$500,000 CIP project to repair the library has been initiated.

journals and other publications.

Other Big Island, Maui and Oahu libraries sustained some minor damage such as falling ceiling tiles, warped bookshelves, and books and other items strewn all over the floor. There were no reports of damage to Kauai libraries.

"The full extent of the damage is still unknown," said State Librarian Jo Ann Schindler. "But we are thankful that there was no loss of life or major injuries, probably due in part to the fact that the quakes occurred early that Sunday morning."

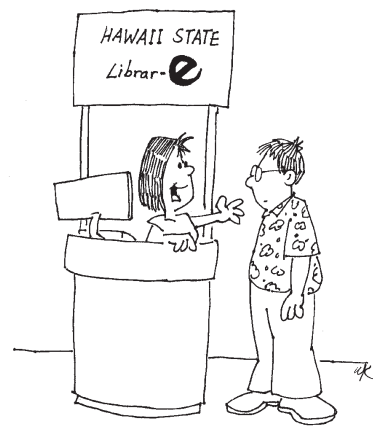

On Oahu, three public libraries - the flagship Hawaii State Library, Mililani, and Waikiki-Kapahulu - reported that the earthquakes enlarged some of the existing minor building cracks. At Mililani Public Library, the entire length of the bottom of a new atrium wall built this past March was cracked.

Two Maui libraries - Wailuku and Lahaina - reported some damage. Wailuku Public Library reported shelving pulled out from walls, library materials tossed across floors, and ceiling tiles, air conditioning vents and fixtures had sustained some damage.

The Hawaii State Public Library System is continuing to work with DAGS, the Federal Emergency Management Agency and the State Civil Defense on assessing damages from both earthquakes and power outages on October 15<sup>th</sup>.
